

Nine Gates Esoteric School

July 28 - August 8, 2021 Joshua Tree, CA

Often times during my daily life, in serving women leaders at 13 Temples and in navigating these unprecedented moments of global shifts, I remember a practice or moment from Esoteric School that brings me right back into the temple. In the circle of initiates. Into the ceremonies. Under the stars. By the fire. And an inner alchemy ignites. I remember all I need to remember to show up present, curious, completely embodied to the moment. Esoteric School prepared me to become a CEO of 13 Temples and to be as useful and present as I can be to the Great Awakening we are experiencing in this world. It's an invaluable education and experience for those who are committed to being way-showers in these times.

Darshan, HI ~

Mystery School opened gateways of energy and doors of perception. Since participating in the Esoteric School, I have watched those perceptions take form and those energies take flesh in me so that the earth is fed.

Steven, MA ~

There were many takeaways for me from Esoteric School, which have become integral to my everyday life. One of the biggest was the visceral experience and understanding of my connection with Earth. Another was the heightened awareness that reality is so much more than we think it is, and thus the humbling acceptance that we can't pretend to really know anything.

Mike, CA ~

Esoteric School wrought changes in me! Before attending Esoteric School, my thoughts were caught on a hamster wheel chasing rabbits. That chase has entirely shifted; as I more easily still the mind, focusing my attention now. I am more grounded, able to be present. These fruits continue a year later! My dyad partner and I still meet weekly. His friendship is such a gift! We are re-visiting the practices we did together to prepare for Esoteric school during the six months before arrival. These practices cultivate awareness, among other riches. To those considering Esoteric School, try it. Allow yourself to be surprised.

Frances, TX ~

Experiential, transformative, very deep, in the body and the breath, an emptying out to Spirit and the Collective from deep within. The time spent before the school meets, with the weekly experiences and exercises and connected intimately to the group, is key preparation work and at the same time stands on its own. On the precipice? Take the leap into the unknown. It is well worth it.

John Thomas, WV ~

**The most esoteric teachings of all, to the student dedicated to being of benefit,
become the most practical magic of all,
lived in plain view for all to see.**

Deborah

No words describe the deeply transformative experience of Esoteric School 2019...with shifts, changes and new ways of being happening in my life in every moment. My Gratitude knows no bounds during this challenging time of Collective Transmutation into Unity Consciousness, for the Love and Teachings imbibed at Esoteric School hold me in a space of Open Heartedness, Joy, Truth and Service as we journey together toward the All that Is.

Deborah, CA ~

Esoteric School was a revelation, similar to how Part One and Part Two both were for me. It's hard to put something so meaningful into words. There were questions and directions I wanted to explore more after Part Two, and Esoteric School did not disappoint. Andrew Holecek was one of the many highlights and a tremendous teacher who I learned so much from. As usual, Deborah weaves and wove and reconnected everything back into a coherent whole throughout the process. Being back in the beautiful desert, with the Nine Gates community, learning and exploring with other Graduates and staff was such a gift. It was like I had never left. Since returning, I have enjoyed an even deeper experience of connectivity with Life, in my relationships and with Self.

Erik, CT ~

Esoteric School! It was a mystery! What I found was a sacred place to do more self-discovery, to explore more of my authentic self. A joyous space of possibilities was created with various teachers, fellow seekers and staff. I was challenged and supported in a loving way. While truly a group event, I had a very personalized journey. I penetrated my very core to realize "yes there is I and We." I wrestled with the construct of self to find myself in the esoteric space of really living - feeling - acting from my heart in the moment. What a gift to give myself and those I love!
